PERFORMANCE FABRICS

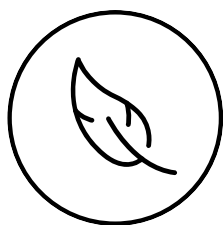

No matter where you draw your inspiration from, **Sunbrella** offers an extensive collection of quality performance fabrics in a variety of colors, patterns, and textures, so there's something perfectly suited for your style and space.

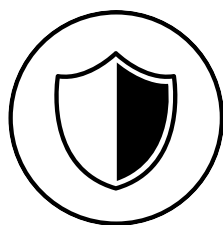

As an industry-leading pioneer, **Sunbrella** has coupled our design-driven approach with innovative performance to bring comfort, cleanability and color retention to your coziest spaces.

Sunbrella performance fabrics are made of 100% solution-dyed acrylic, with color engineered into the very fiber of our fabric. Our fiber is saturated with our proprietary "Color to the Core™" technology, which guarantees that our fabrics will not fade over time, and unlike fabrics made with a finish, our exceptional colors and cleanability will stay true for the life of the fabric.

Sunbrella performance fabrics are designed to last so that you can focus on creating deeply desirable spaces that will look like new, year after year.

PERFORMANCE FABRICS

alta™

Alta™ is a cutting-edge performance technology that provides textiles with an unmatched repellency to oil and water-based stains. This permanent, 95% water-based technology will safeguard virtually any textile without altering its hand, shade or breathability. Liquids bead up on the fabric's surface, therefore enhancing cleanability and reducing the need for chemical cleaning agents. The environmentally friendly **Alta™** technology enables you to face the hazards of real life with ease and peace of mind!

FEATURES & BENEFITS

The **Alta™** technology:

- offers unmatched repellency to oil and water-based stains;
- is permanent as a result of molecular bond to fibers; will not migrate or "off-gas";
- greatly improves cleanability, reducing the need for chemical cleaning agents;
- is non-allergenic and safe to be next to the skin; core technology similar to performance fabric used for leading apparel and sportswear;
- is odorless and completely imperceptible to the eye and hand;
- is environmentally friendly; 95% water-based and free from any solvents or VOCs, PFOS, PFOA, formaldehyde, heavy metals or phthalates.

PERFORMANCE FABRICS

WHY LIVESMART?

LiveSmart fabrics were designed for lived-in moments.

From spills to dirt to every day wear and tear, life's messes happen. Our fabric offers protection down to the performance yarn that it's made with. LiveSmart fabrics offer innovative performance technology coupled with the latest home design trends. Why choose between form and function? LiveSmart, so your home can be more lived in.

Outstanding comfort with a safe finish.

While other brands offer textiles with performance fiber OR finish, LiveSmart combines both to give our fabrics unmatched durability and longevity. LiveSmart fabrics are produced exclusively with performance yarns that are encapsulated with a stain-repellent and moisture-repellent finish for exceptional cleanability.

Developed with years of research and testing, LiveSmart technology provides lasting performance at a great value. All our fabrics meet or exceed standards for ASTM performance and safety. Check out our resources page for more information about LiveSmart technology.

MOISTURE REPELLENT

Innovative technology that repels water and moisture, while allowing air to flow freely.

STAIN RESISTANT

Stain technology that goes beyond preventing stains to resisting them.

BARRIER PROTECTION

LiveSmart technology protects your fabrics from the core.

HEAVY DUTY

Durability that ensures your fabric looks as beautiful as the day you bought it.
